

Canopy Connect & QuoteRUSH Optimization Runbook

Objective

Maximize lead quality, speed-to-quote, and close rate by tightening the Canopy Connect to QuoteRUSH workflow.

A) Intake & Mapping QA (Day 1)

1. Confirm required fields always map into QuoteRUSH:

- Applicant name
- DOB
- Address/ZIP
- Contact info (email/phone)
- Vehicle/property details
- Current carrier/policy dates (if collected)

2. Validate field formats:

- Phone normalization
- Date format consistency
- Address standardization

3. Test 5 real-world scenarios:

- New business auto
- Homeowners rewrite
- Multi-vehicle household
- Condo/tenant
- Partial/incomplete intake

B) Lead Quality Controls (Day 1 & 2)

4. Duplicate prevention rules:

- Match on email + phone + address
- Flag probable duplicates for review queue

5. Missing-data flags:

- Auto-tag "Needs Follow-up" when critical fields are missing

6. Source tagging:

- Mark Canopy-origin leads in QuoteRUSH for performance tracking

C) Workflow Speed (Day 2)

7. Auto-routing rules:
- Route by line of business + state + producer queue

8. SLA timers:
- First-touch alert at 10â 15 minutes
 - Escalation if untouched at 30 minutes

9. Standard status flow:
- New â Working â Quoted â Bound/Lost

D) Producer/CSR Enablement (Day 2â 3)

10. One-page SOP:
- "What to check first when Canopy lead arrives"
 - "What to do if data is incomplete"
 - "When to call vs text vs email"

11. Templates:
- Missing info follow-up script
 - Quote-ready confirmation script
 - "Need docs" checklist message

E) Conversion Tracking (Weekly)

12. Track these KPIs by Canopy source:
- Lead-to-quote %
 - Quote-to-bind %
 - Avg response time
 - Time-to-quote
 - Close rate by producer

13. Weekly review:
- Top 3 blockers
 - Top 3 wins
 - 1 workflow tweak for next week

F) Automation Opportunities (Phase 2)

14. Auto-create follow-up tasks when:
- Lead incomplete
 - Quote not sent in X hours
 - Renewal window opens

15. Daily manager digest:

- Canopy leads received
- Worked/unworked
- Overdue follow-ups
- Binds won
