

Objective

Rebuild Branch Agency Solutions into a modern MGA authority site that drives producer/agency submissions, showcases private flood expertise, and routes opportunities into a unified operations pipeline.

Strategic Role

- Primary brand role: MGA authority platform (flood-first, multi-line capability)
- Audience: retail agents, partner agencies, distribution channels, and select direct prospects
- Business goal: increase qualified submissions and partner onboarding

1) Core Positioning

Primary Promise

Private flood and specialty solutions with faster response, cleaner underwriting intake, and dependable agency support.

Message Pillars

1. MGA expertise (not generic retail quoting)
2. Private flood depth + additional lines
3. Fast turnaround and clear submission standards
4. Partner-first service model

2) Required v1 Sitemap

1. Home
2. Flood Programs
3. Other Lines / Markets
4. For Agents (Appetite + Submission Guidelines)
5. Become a Partner
6. About Branch Agency Solutions
7. Contact / Submission
8. Compliance, Licensing, Privacy, Disclosures

Optional v1.1:

- Carrier/market spotlight page
- Resource center (forms, underwriting tips)
- Case studies/testimonials

3) Homepage Conversion Structure

Above the Fold

- Headline: MGA authority + private flood strength
- Subhead: fast submission-to-response promise
- Primary CTA: Submit a Risk
- Secondary CTA: Become a Partner

Trust Strip

- Years in market
- States served
- Program types
- Service SLA commitment

Program Blocks

- Private Flood
- Coastal/Challenging Risks
- Additional specialty/commercial options

Operational Proof

- Intake standards
- Turnaround expectations
- Dedicated support flow

4) Submission Flow Design

Step 1 (Fast Intake)

- Producer/agency name
- Insured name
- Risk type/line
- Property address/state
- Contact email/phone

Step 2 (Structured Details)

- Coverage targets
- occupancy/construction basics
- prior coverage/loss indicators
- document upload

Routing Rules

- Flood submissions -> flood queue
- Specialty/commercial -> line-specific queue
- Missing required fields -> exception queue

5) Brand + Visual Direction

- Professional MGA tone (clean, credible, not overdesigned)
- Strong contrast and readability

- Program cards and clear CTA hierarchy
- Avoid cluttered hero sliders
- Mobile-first interactions

6) Tracking + KPI Framework

Track at minimum:

- program page views
- submission starts
- submission completes
- partner inquiry submissions
- call/email click-throughs

Weekly KPIs:

- submission completion rate
- partner lead count
- quote turnaround time
- bind conversion by program

7) Backend Integration

- Unified intake backend with CD/QuoteRUSH workflows
- Lifecycle status standardization:
New -> Intake Review -> Quote Ready -> Proposal Sent -> Won/Lost
- Exception handling for missing docs/fields
- Audit trail on edits and handoffs

8) Build Plan

Phase 1 (2-3 days)

- Messaging architecture + wireframes
- Form field schema + routing rules

Phase 2 (3-4 days)

- Build pages + responsive QA
- Integrations + events tracking

Phase 3 (1-2 days)

- Launch + QA
- First optimization pass from live traffic

9) Immediate Next Actions

1. Approve positioning statement and headline direction
2. Finalize program list for v1 navigation
3. Approve submission form required fields
4. Decide platform path (Squarespace/Webflow/custom)
5. Launch v1 and start 14-day optimization cycle
